EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Katy on 3/30/05.

The application has been amended as follows: Claims 2,3,6,16,17 and 21-23 have been canceled. In claim 4, line 1, "2" has been changed to -1--. In claim 12, line 1, "10" has been changed to -11--. In claim 19, line 1, "17" has been changed to -15--.

Claims 1 and 15 have been rewritten as appears below.

Claim1 A casing alignment tool for aligning a section of casing within a well bore topped with an annular flange, the tool comprising:

 a base plate adapted for detachable securing to an upper surface of the flange;

 a back plate extending at a right angle to the base plate;

 a means carried by the back plate for engaging an exterior wall of the casing and applying a force having a vertical component to the casing to thereby cause a central axis of the casing to substantially align with a central axis of the well bore, wherein said force applying means comprises a power means secured to an upper portion of the back plate and a casing engaging member operationally connected to the

power means for transmitting the force generated by the power means to the casing;
and

said power means is a hydraulic jack.

Claim 15 A casing alignment tool for aligning a section of casing within a well bore topped with an annular flange, the tool comprising:

a base plate detachably secured to an upper surface of the flange;

a back plate extending at a right angle to the base plate;

a power means carried by the back plate, said power means comprising a hydraulic jack secured to an upper portion of the back plate; and

a casing engaging member supported by the power means for engaging an exterior wall of the casing and applying a force having a vertical component to the casing to thereby cause a central axis of the casing to substantially align with a central axis of the well bore.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William P Neuder whose telephone number is 703-308-2150. The examiner can normally be reached on Tuesday through Friday.
